Project Summary

This is an Erasmus+ KA226 strategic partnership of five schools situated in countries all over Europe: Greece, Portugal, Iceland, Serbia and Belgium. Its title is "Digital Readiness for European Distance Learning" (DIGI.R.E. DI. L) and it will last 24 months. Partner schools all belong to secondary education, most of them to the vocational one. Teachers involved are experienced in the use of ICT and in distance learning long before COVID-19 imposed its restrictions on school life as well. They are also eTwinners and open to innovation. The main objective of the project is to update the digital competences of teachers and students of partner schools. by introducing new software and methods that can be used to make distance learning qualitative and fruitful for the educational procedure. The institutions involved will share their knowledge and experience in the use of ICT in education and develop teaching material together. This teaching material will be tested in virtual, mixed but also some regular classes and will be uploaded on project Twinspace and blog so as to be available to any teacher in and out of the schools involved. Basic project info like participants, objectives and activities, mobilities and procedures will be disseminated in the form of newsletters and the results will also be published in the form of an e-book where all partners will contribute.

Third LTTA meeting in Serbia

The third *Learning /Teaching/ Training Activity* of the Erasmus project “Digital Readiness for European Distant Learning” was realized in Vocational school “Branko Radičević”, Serbia. Participating countries other than Serbia were Greece (coordinating school), Portugal, Iceland and Belgium.

Main objects of this third LTTA meeting was how the host teachers used web tools like Nearpod, live worksheets, onlinequizcreator, kahoot and etc. in lesson plans in the platform of *Google Classroom* in Covid time. Also, the aim of the training was to master the basic level of use Lego Mindstorm as well as Drone control.

Introduction to the Serbian school system.

by Maja Marković

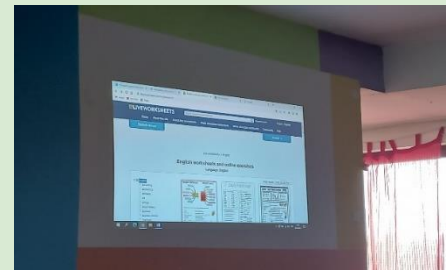

Colleague Maja Marković, English teacher, presented the Serbian education system, explained the process of schooling and assessment. She also presented the working conditions for our employees. A nice discussion developed with colleagues from partner

Introduction to the Serbian school system - distance learning

by Ivana Kapetanovic

Presentation: "School positive experience connected with digital technology and distance learning", colleague Ivana Kapetanovic presented the web tools she used in distance learning during the Corona virus pandemic, but which she still uses today when classes are live. Synchronous and asynchronous learning, advantages and disadvantages. We compared the tools used by colleagues from partner countries, drew conclusions about the good and bad sides of distance learning.

Welcome lunch in the authentic ambience of Srem.

Media cover

Two television companies (Fruška gora and Dunav television), visited the school during the training and made a report about the training and informed the general public about the project activities and the project in general. Statements were made by Maria K., project coordinator from Greece, and Ivana S., representative of Serbia.

Drone control

by Igor Tomić

Presentation about Drone control - the participants were presented with the drone, its capabilities and purpose. Participants tried manual control, basic control steps, put together commands in Scratch and finally programmed in Python. They worked in groups. Colleague Igor Tomić paid attention to each group individually and worked with colleagues individually.

Transnational project meeting

by Ivana Stankovic

Representatives of each country talked with the coordinator about items from the agenda and evaluated the project process so far. The Belgian and the Portuguese coordinators joined us in a digital way.

Policy on E security

by Miljan Radanović

We visited an IT company "Positive" based in Novi Sad. The director of the company welcomed the teachers and introduced us to the company's work. The emphasis of the discussion was E-security. He presented us with the problems that companies face if they do not put E-security in the first place of business. We also discussed data protection in the education sector. The conclusion at the group level is that it is necessary to increase the degree of protection of personal data as well as to protect copyrights and patents at higher education institutions.

“Unija Poslodavaca Vojvodine” –

Company’s dissemination practices for the sake of the project. – Vladimir Lalošević, the president of the Union of Employers of Vojvodina, talked with representatives of partner schools about the project, about the plan of dissemination activities, as well as about the Union’s work in the field of education, the connection between the economy and the school system.

Cultural visits

by Serbian team

Two cultural visits were organized one in Belgrade, – visit to the Temple of Saint Sava, the monument of Stefan Nemanja, the Kalemegdan fortress- and one in Novi Sad walking around all important sites of the city.

Evaluation, Certificates

by Daniela Vasić

All participants received on line questionnaires to fill in, in order to improve further work on the project as well as the next mobility.
